HYDROCARBON PROCESSING

1978 Annual Editorial Index

Volume 57

ABSORPTION
Get aromatics out of kerosine....Feb. 113
Merits of acid gas removal processes....Feb. 125
Design for selective H_2S absorption....Apr. 89
Selexol unit saves energy....Apr. 122
Save energy in ammonia plants....Apr. 145
Erratum....*July 85*
Problems in furfural extraction....May 181
How much lube and wax capacity....May 185
Optimize caustic scrubbing systems....May 201
Refining process handbook....Sept. 97
Re-refining makes quality oils....Oct. 141
Refining Qayarah crude from Iraq....Nov. 189
Hydroprocess solvent refined coal....Nov. 195
Glycols not best for smoke point....Dec. 105

ACETALDEHYDE see ALDEHYDES

ACETYLENE
Combine C_2H_2/C_2H_4 for lowest cost....Jan. 159

ACID GASES
Merits of acid gas removal processes....Feb. 125
Q & A gives processing guides....Mar. 103
Design for selective H_2S absorption....Apr. 89
Determine Claus conversion from catalyst properties...Apr. 99
Selexol unit saves energy....Apr. 122
How good is flue gas desulfurization?....May 132
Scrubber controls cracker SO_x emissions....May 141
Optimize caustic scrubbing systems....May 201
What's new in catalysis?....May 213
Advances in Claus technology (Part 1)....July 155
Predict Claus products....Aug. 143
From hydrocarbons to petrochemicals (Part 12)....Aug. 153
Refining process handbook....Sept. 97
Advances in Claus technology (Part 2)....Sept. 257
Make PTAL from CO and toluene....Nov. 147
Make sulfur from lean acid gases....Nov. 219

ACIDS/CARBOXYLIC
From hydrocarbons to petrochemicals (Part 12)....Aug. 153

ACROLEIN
From hydrocarbons to petrochemicals (Part 11)....June 149

ACRYLIC ACID
From hydrocarbons to petrochemicals (Part 11)....June 149

ACRYLICS
From hydrocarbons to petrochemicals (Part 10)....Apr. 155
From hydrocarbons to petrochemicals (Part 11)....June 149
From hydrocarbons to petrochemicals (Part 12)....Aug. 153
Adiponitrile via EHD....Nov. 139

ACRYLONITRILE
From hydrocarbons to petrochemicals (Part 11)....June 149
Adiponitrile via EHD....Nov. 139

ADDITIVES
Refining process handbook....Sept. 97

ADIPIC ACID
From hydrocarbons to petrochemicals (Part 13)....Nov. 291

ADIPONITRILE
From hydrocarbons to petrochemicals (Part 11)....June 149
Adiponitrile via EHD....Nov. 139

ADSORPTION
Process improves large scale hydrogen production....Jan. 175
Refining process handbook....Sept. 97
Re-refining makes quality oils....Oct. 141

ALCOHOLS
Oxidize n-paraffins for sec-alcohols....Jan. 145
Dehydrate ethanol to ethylene....Feb. 133
From hydrocarbons to petrochemicals (Part 10)....Apr. 155
Methanol—Fuel or chemical?....June 141
From hydrocarbons to petrochemicals (Part 12)....Aug. 153
Re-refining makes quality oils....Oct. 141
From hydrocarbons to petrochemicals (Part 13)....Nov. 291
Better filtration of waste oils....Dec. 103

ALDEHYDES
From hydrocarbons to petrochemicals (Part 10)....Apr. 155
From hydrocarbons to petrochemicals (Part 11)....June 149
Make PTAL from CO and toluene....Nov. 147

ALKAZID PROCESS
Optimize caustic scrubbing systems....May 201

ALKYLATION
Refining process handbook....Sept. 97
From hydrocarbons to petrochemicals (Part 13)....Nov. 291

AMINES
Design for selective H_2S absorption....Apr. 89
What's new in catalysis?....May 213
Refining process handbook....Sept. 97
From hydrocarbons to petrochemicals (Part 13)....Nov. 291

AMMONIA
India's ammonia catalysts consumption....Jan. 141
Save energy in ammonia plants....Apr. 145
Erratum....*July 85*
Mideast ammonia prospects favorable....May 94-D
Treat BFW for NH_3 plants....Sept. 241
Make strong and/or weak HNO_3....Nov. 163
Lowest energy ammonium nitrate....Nov. 169
Why horizontal NH_3 converters?....Dec. 115

AMMONIUM NITRATE
Lowest energy ammonium nitrate....Nov. 169

AMMOXIDATION
From hydrocarbons to petrochemicals (Part 11)....June 149

ANALYZING see also INSTRUMENTATION
Better data with eddy current....Jan. 117
Change controls to save energy....Feb. 93
Compressor shop tests: Do they ensure reliability?....Apr. 201
New lubes up auto fuel economy....May 129
Cure exchanger acoustic vibration....July 193
Design a mobile machinery analysis laboratory....Aug. 115
Evaluate separation for LNG plants....Sept. 266
Refinery cyanides—a regulatory dilemma....Oct. 98
Analyze steam tracing . . . do it right....Dec. 125

ANILINE
From hydrocarbons to petrochemicals (Part 13)....Nov. 291

ANTIKNOCK RATING
To up hydrocracking conversion....May 113
More ways to use hydrocracking....May 122
Up octanes and fuel oil in FCC....July 207
Erratum....*Aug. 75*
Refining process handbook....Sept. 97

AROMATICS
Get aromatics out of kerosine....Feb. 113
To up hydrocracking conversion....May 113
More ways to use hydrocracking....May 122
To predict cat reformer yield....July 201
Refining process handbook....Sept. 97
Feedstocks from coal: How? When?....Nov. 117
Make phenol from benzoic acid....Nov. 125
Make PTAL from CO and toluene....Nov. 147
Unicracking for petrochemicals....Nov. 157
Plant uses prove phenol recovery with resins....Nov. 269
From hydrocarbons to petrochemicals (Part 13)....Nov. 291
Glycols not best for smoke point....Dec. 105

ASPHALT
Refining process handbook....Sept. 97
Refining Qayarah crude from Iraq....Nov. 189

BENZENE
Unicracking for petrochemicals....Nov. 157
From hydrocarbons to petrochemicals (Part 13)....Nov. 291

BENZOIC ACID
Make phenol from benzoic acid....Nov. 125

BUTADIENE
From hydrocarbons to petrochemicals (Part 8)....Jan. 135
From hydrocarbons to petrochemicals (Part 9)....Mar. 129
From hydrocarbons to petrochemicals (Part 12)....Aug. 153
Butadiene via oxidative dehydrogenation....Nov. 131

BUTANOL
From hydrocarbons to petrochemicals (Part 11)....June 149

BUTENES
From hydrocarbons to petrochemicals (Part 12)....Aug. 153
Refining process handbook....Sept. 97
Butadiene via oxidative dehydrogenation....Nov. 131

BUTYRALDEHYDE
From hydrocarbons to petrochemicals (Part 11)....June 149

CATALYSTS
India's ammonia catalysts consumption....Jan. 141
Oxidize n-paraffins for sec-alcohols....Jan. 145
Dehydrate ethanol to ethylene....Feb. 133
Q & A gives processing guides....Mar. 103
Determine Claus conversion from catalyst properties...Apr. 99
From hydrocarbons to petrochemicals (Part 10)....Apr. 155
To up hydrocracking conversion....May 113
Hydrocrack for more distillates....May 117
More ways to use hydrocracking....May 122

What's new in catalysis? ..... May 213
From hydrocarbons to petrochemicals (Part 11) ..... June 149
Advances in Claus technology (Part 1) ..... July 155
Up octanes and fuel oil in FCC ..... July 207
Erratum ..... *Aug. 75*
Refining process handbook ..... Sept. 97
Advances in Claus technology (Part 2) ..... Sept. 257
Compare propylene oxide processes ..... Nov. 105
Butadiene via oxidation dehydrogenation ..... Nov. 131
New process for LD-PE ..... Nov. 151
Unicracking for petrochemicals ..... Nov. 157
Make strong and/or weak HNO_3 ..... Nov. 163
Refining Qayarah crude from Iraq ..... Nov. 189
Processing solvent refined coal ..... Nov. 195
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

CATALYTIC CRACKING

Q & A gives processing guides ..... Mar. 103
Design cat crackers by computer ..... Apr. 125
Scrubber controls cracker SO_x emissions ..... May 141
Use of turboexpanders with FCC ..... July 111
Up octanes and fuel oil in FCC ..... July 207
Erratum ..... *Aug. 75*
Starting FCC power recovery ..... Aug. 103
Erratum ..... *Oct. 89*
Recover power from FCC units ..... Dec. 131

CATALYTIC REFORMING see REFORMING

CAUSTIC

Slide rule shows caustic to add ..... Apr. 137

CAVITATION see PUMPS

CHLORINATION

Compare propylene oxide processes ..... Nov. 105

CHLOROCARBONS

What's ahead for PVC ..... Jan. 155
From hydrocarbons to petrochemicals (Part 10) ..... Apr. 155

CHROMATOGRAPHY

Change controls to save energy ..... Feb. 93
Distill with composition control ..... Feb. 99

CLAUS PROCESS

Merits of acid removal processes ..... Feb. 125
Determine Claus conversion from catalysts properties ..Apr. 99
What's new in catalysis? ..... May 213
Advances in Claus technology (Part 1) ..... July 155
Predict Claus products ..... Aug. 143

COAL

Lignite—a possible new feed ..... Jan. 191
Merits of acid gas removal processes ..... Feb. 125
L-valve characterized for solids flow ..... Mar. 149
Fluidized-bed combustion has HPI potential ..... May 143
Adapt fluidized-bed coal firing to process heaters ..... May 143
Erratum ..... *July 85*
SYNTHANE process ready for scale-up ..... June 125
Medium Btu gas fits refiner's needs ..... June 131
Methanol—Fuel or chemical? ..... June 141
Coal-fired process heaters? ..... July 95
Planning for coal in 1980s ..... Oct. 58-C
Feedstocks from coal: How? When? ..... Nov. 117
Hydroprocess solvent refined coal ..... Nov. 195
Tomorrow's fuels will be less efficient ..... Nov. 209
Coal minerals affect sulfur in processing ..... Nov. 213

COKING

Lignite—a possible new feed ..... Jan. 191
Q & A gives processing guides ..... Mar. 103
Problems in furfural extraction ..... May 181
Refining process handbook ..... Sept. 97
Refining Qayarah crude from Iraq ..... Nov. 189

COMBUSTION

How good is flue gas desulfurization? ..... May 132
Fluidized bed combustion has HPI potential ..... May 143
Adapt fluidized-bed coal firing to process heaters ..... May 145
Erratum ..... *July 85*
Medium Btu gas fits refiner's needs ..... June 131
Visbreak resid? Figure value ..... Nov. 205

COMPRESSORS

For turbomachinery . . . new acceptance criteria proposed ..... Jan. 169
Erratum ..... *Mar. 74*
Change controls to save energy ..... Feb. 93
Parallel compressor control . . . What should be considered? ..... Feb. 147
A practical vibration primer (Part 8) ..... Apr. 209
New method predicts startup torque (Part 1) ..... Apr. 181
Compressor shop tests: Do they ensure reliability? ..... Apr. 201
A practical vibration primer (Part 8) ..... Apr. 209
Save energy by cogeneration ..... May 151
What process engineers need to know about compressor design ..... May 221
New methods predicts startup torque (Part 2) ..... May 229
Use of turboexpanders with FCC ..... July 111
Analyze mixed refrigerant cycles ..... July 163
Starting FCC Power recovery ..... Aug. 103
Erratum ..... *Oct. 89*
Design a mobile machinery analysis laboratory ..... Aug. 115
Foundations design for rotating fans ..... Oct. 131
How to make a steam balance ..... Nov. 227
Install compressors for high availability ..... Nov. 243

COMPUTERS

Microcomputer systems: Where do you begin troubleshooting? ..... Jan. 109
To get curves from data points ..... Jan. 123
Distill with composition control ..... Feb. 99
Contractor eyes process computer ..... Feb. 108
Design cat crackers by computer ..... Apr. 125
Computer control . . . How will it pay? ..... Apr. 169
Microcomputers . . . Don't get left behind ..... May 163
Optimize water outlet temperature ..... May 245
Double-cascade controller tested ..... June 113
Size relief systems for two-phase flow ..... July 145
Computer control . . . How to get started ..... Sept. 243
How to apply programable controllers ..... Dec. 137

CONSTRUCTION BOXSCORE ..... Feb., June, Oct.

CORROSION

Q & A gives processing guides ..... Mar. 103
Slide rule shows caustic to add ..... Apr. 137
Questions and answers on crude unit corrosion ..... Apr. 141
Control initial aqueous condensate corrosion ..... June 135
Erratum ..... *Aug. 75*
Are hydrogen permeation models accurate? ..... Aug. 149
New refractories solve old problems ..... Nov. 259

COSTS

New survey of U.S. refinery maintenance costs ..... Jan. 85
Estimate refinery cost better ..... Jan. 129
India's ammonia catalysts consumption ..... Jan. 141
Combine C_3H_2/C_2H_4 for lowest cost ..... Jan. 159
Fire-loss report for the HPI ..... Jan. 251
Change controls to save energy ..... Feb. 93
Distill with composition control ..... Feb. 99
Cut polymer costs with cyclones ..... Feb. 119
Dehydrate ethanol to ethylene ..... Feb. 133
Energy sets product prices ..... Mar. 58-J
Project cash flow . . . Description and interpretation ..Mar. 77
Project cash flow . . . Refinancing existing plants ....Mar. 81
Project cash flow . . . Concept to completion ..... Mar. 87
Project cash flow . . . A banker's approach ..... Mar. 90
Is free world trade coming to an end? ..... Apr. 68-D
Power cycle recovers lost energy ..... Apr. 104
Save energy in ammonia plants ..... Apr. 145
Erratum ..... *July 85*
Mideast ammonia prospects favorable ..... May 94-D
Use land farming for oily waste disposal ..... May 138
Optimize caustic scrubbing systems ..... May 201
What process engineers need to know about compressor design ..... May 221
Optimize water outlet temperature ..... May 245
Developing roles of international oil companies ..... June 60-J
How to select a centrifugal pump vendor ..... June 93
Inline or horizontal . . . Which is best? ..... June 99
Save energy with pumps ..... June 103
SYNTHANE process ready for scale-up ..... June 125
Medium Btu gas fits refiner's needs ..... June 131
Methanol—Fuel or chemical? ..... June 141
Chemical recycle can save energy ..... July 89
Finite capital resources limit . . . Conversion from oil to coal ..... July 107
Analyze mixed refrigerant cycles ..... July 163
Options for olefins feedstocks ..... July 171
Why revamp an older steam cracker? ..... July 179
U.S. propylene: Demand versus supply ..... July 187
Save electrical energy (Part 2) ..... Aug. 127
Refining process handbook ..... Sept. 97
Improve steam cracker operation ..... Sept. 227
Naphtha: Supply/demand 1977-1985 ..... Sept. 237
Treat BFW for NH_3 plants ..... Sept. 241
Select pumps to save energy ..... Oct. 127
What's ahead for NGL's? ..... Oct. 147
What constraints petrochemical demands? ..... Nov. 99
Compare propylene oxide processes ..... Nov. 105
Feedstocks from coal: How? When? ..... Nov. 117
Butadiene via oxidative dehydrogenation ..... Nov. 131
Make strong and/or weak HNO_3 ..... Nov. 163
Unicracking for petrochemicals ..... Nov. 157
Make strong and/or weak HNO_3 ..... Nov. 163
Lowest energy ammonium nitrate ..... Nov. 169
Petrochemicals in the Far East ..... Nov. 179
Visbreak resid? Figure value ..... Nov. 205

Petrochemical alternative—ACR ..... Dec. 109
Why horizontal NH_3 converters? ..... Dec. 115

COUPLINGS
Extend gear coupling life ..... Jan. 112

CRACKING/CHEMICAL/
From hydrocarbons to petrochemicals (Part 8) ..... Jan. 135
Combine C_2H_2/C_2H_4 for lowest cost ..... Jan. 159
Q & A gives processing guides ..... Mar. 103
From hydrocarbons to petrochemicals (Part 9) ..... Mar. 129
Design cat crackers by computer ..... Apr. 125
To up hydrocracking conversion ..... May 113
Hydrocrack for more distillates ..... May 117
More ways to use hydrocracking ..... May 122
Scrubber controls cracker SO_x emissions ..... May 141
Optimize caustic scrubbing systems ..... May 201
Use for turboexpanders with FCC ..... July 111
Analyze mixed refrigerant cycles ..... July 163
Options for olefin feedstocks ..... July 171
Why revamp an older steam cracker? ..... July 179
Up octanes and fuel oil in FCC ..... July 207
Erratum ..... *Aug. 75*
Starting FCC power recovery ..... Aug. 103
Erratum ..... *Oct. 89*
Refining process handbook ..... Sept. 97
Improve steam cracker operation ..... Sept. 227
Unicracking for petrochemicals ..... Nov. 157
Refining Qayarah crude from Iraq ..... Nov. 189
Hydroprocess solvent refined coal ..... Nov. 195
Visbreak resid? Figure value ..... Nov. 205
Petrochemical alternative—ACR ..... Dec. 109
Recover power from FCC units ..... Dec. 131

CRUDE OILS
Heat capacity determined for crude fractions ..... Jan. 187
Preflash saves heat in crude unit ..... July 123
Refining process handbook ..... Sept. 97
Refining Qayarah crude from Iraq ..... Nov. 189

CUMENE
Make phenol from benzoic acid ..... Nov. 125
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

CYCLOHEXANE
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

CYCLONES
Cut polymer costs with cyclones ..... Feb. 119
Use of turboexpanders with FCC ..... July 111

CYCLOPARAFFINS
More ways to use hydrocracking ..... May 122
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

DEASPHALTING
How much lube and wax capacity ..... May 185
Refining process handbook ..... Sept. 97
Refining Qayarah crude from Iraq ..... Nov. 189

DEHYDROGENATION
From hydrocarbons to petrochemicals (Part 11) ..... June 149
To predict cat reformer yield ..... July 201
Refining process handbook ..... Sept. 97
Butadiene via oxidative dehydrogenation ..... Nov. 131
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

DENITROGENATION
What's new in catalysis? ..... May 213
Refining process handbook ..... Sept. 97
Refining Qayarah crude from Iraq ..... Nov. 189
Hydroprocess solvent refined coal ..... Nov. 195

DESALTING
Slide rule shows caustic to add ..... Apr. 137

DESIGNS see SPECIFIC EQUIPMENT

DESULFURIZATION
Merits of acid gas removal processes ..... Feb. 125
Determine Claus conversion from catalyst properties ... Apr. 99
Optimize caustic scrubbing systems ..... May 201
What's new in catalysis? ..... May 213
Advances in Claus technology (Part 1) ..... July 155
Predict Claus products ..... Aug. 143
Refining process handbook ..... Sept. 97
Refining Qayarah crude from Iraq ..... Nov. 189
Hydroprocess solvent refined coal ..... Nov. 195

DETERGENTS
Oxidize n-paraffins for sec-alcohols ..... Jan. 145

DEWAXING
Problems in furfural extraction ..... May 181
Refining process handbook ..... Sept. 97

DISTILLATION
Change controls to save energy ..... Feb. 93
Distill with composition control ..... Feb. 99
Criteria for relative volatility ..... Feb. 155
Q & A gives processing guides ..... Mar. 103
Questions and answers on crude unit corrosion ..... Apr. 141
Preflash saves heat in crude unit ..... July 123
Valve tray flooding generalized ..... Aug. 111
Erratum ..... *Oct. 75*
Refining process handbook ..... Sept. 97
Reboiled stripper cuts wastes ..... Oct. 107
Re-refining makes quality oils ..... Oct. 141
Method tests V/L correlations ..... Nov. 282

DRAWINGS
Design cat crackers by computer ..... Apr. 125

DRIVERS
A practical vibration primer (Part 7) ..... Mar. 119

DRYING
Dehydrate ethanol to ethylene ..... Feb. 133
Refining process Handbook ..... Sept. 97

ECONOMICS see COSTS

EDELEANU PROCESS
Get aromatics out of kerosine ..... Feb. 113

ELECTRICAL EQUIPMENT
Change controls to save energy ..... Feb. 93
Protect motors by heat sensing ..... Apr. 175
Recover energy with induction generators ..... July 103
Use of turboexpanders with FCC ..... July 111
Use of fuel cells in refining ..... July 119
Save electrical energy (Part 1) ..... July 131
Starting FCC power recovery ..... Apr. 103
Erratum ..... *Oct. 89*
The best choice . . . Type MC continuous aluminum sheath cable ..... Aug. 123
Save electrical energy (Part 2) ..... Aug. 127
Wiring tight? . . . Try multiplexing ..... Sept. 253
How to apply programable controllers ..... Dec. 137

ENGINES
New lubes up auto fuel economy ..... May 129
Re-refining makes quality oils ..... Oct. 141

ENVIRONMENT
What the new Clean Water Act means to HPI plant managers ..... Feb. 165
Q & A gives processing guides ..... Mar. 103
New lubes up auto fuel economy ..... May 129
How good is flue gas desulfurization? ..... May 132
How water regs impact refining ..... May 135
Use land farming for oily waste disposal ..... May 138
Scrubber controls cracker SO_x emissions ..... May 141
Developing new API 650 Appendix H ..... May 170
Save lost hydrocarbons ..... May 158
How much benzene causes cancer? ..... May 172
Train employees to improve health ..... May 175
The HPI can prevent cancer ..... June 193
Chemical recycle can save energy ..... July 89
Clean Air Act '77 (Part 1) ..... July 255
What every manager should know about environmental regulations ..... Aug. 87
Refining process handbook ..... Sept. 97
Latest clean air requirements ..... Oct. 91
Refinery cyanides—a regulatory dilemma ..... Oct. 98
Reboiled stripper cuts waste ..... Oct. 107
Principles of activated sludge treatment (Part 1) ..... Oct. 112
Pick the right seal ..... Oct. 119
Polishing biological plant effluents ..... Oct. 125
Make phenol from benzoic acid ..... Nov. 125
Plant uses prove phenol recovery with resins ..... Nov. 269
Principles of activated sludge treatment (Part 2) ..... Nov. 275
Principles of activated sludge treatment (Part 3) ..... Dec. 147

ESTERS
From hydrocarbons to petrochemicals (Part 12) ..... Aug. 153

ETHANE
Distill with composition control ..... Feb. 99

ETHERS
From hydrocarbons to petrochemicals (Part 12) ..... Aug. 153

ETHYLENE
From hydrocarbons to petrochemicals (Part 8) ..... Jan. 135
Combine C_2H_2/C_2H_4 for lowest cost ..... Jan. 159
Dehydrate ethanol to ethylene ..... Feb. 133
From hydrocarbons to petrochemicals (Part 9) ..... Mar. 129
From hydrocarbons to petrochemicals (Part 10) ..... Apr. 155
Analyze mixed refrigerant cycles ..... July 163
Options for olefin feedstocks ..... July 171
Why revamp an older steam cracker? ..... July 179
Improve steam cracker operation ..... Sept. 227
Naphtha: Supply/demand 1977-1985 ..... Sept. 237
What's ahead for NGL's? ..... Oct. 147
Petrochemicals in the Far East ..... Nov. 179
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291
Petrochemical alternative—ACR ..... Dec. 109

ETHYLBENZENE
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

ETHYLENE OXIDE
Oxidize n-paraffins for sec-alcohols ..... Jan. 145

From hydrocarbons to petrochemicals (Part 10).....Apr. 155
ESTERS
From hydrocarbons to petrochemicals (Part 11).....June 149
From hydrocarbons to petrochemicals (Part 12).....Aug. 153
EXTRACTION see ABSORPTION
FIRED HEATERS
Fluidized bed combustion has HPI potential .....May 143
FILTRATION
Better filtration of waste oils .....Dec. 103
FLARING
Save lost hydrocarbons .....May 158
A new approach to relief valve load calculation .....May 160
FLOW PROPERTIES
New lubes up auto fuel economy .....May 129
FLUIDIZING
Dehydrate ethanol to ethylene .....Feb. 133
L-valve characterized for solids flow .....Mar. 149
Fluidized bed combustion has HPI potential .....May 143
FOAM
Q & A gives processing guides .....Mar. 103
FORECASTING
World LNG trade .....Jan. 68-D
Estimate refinery cost better .....Jan. 129
India's ammonia catalysts consumption .....Jan. 141
What's ahead for PVC .....Jan. 155
Combine C_2H_2/C_2H_4 for lowest cost .....Jan. 159
The future for sulfur .....Jan. 181
Oil and/or chemical refineries .....Feb. 76-F
Japan is ready for international ventures .....Mar. 58-D
Project cash flow . . . Description and interpretation..Mar. 77
Project cash flow . . . Refinancing existing plants ....Mar. 81
Project cash flow . . . Concept to completion .....Mar. 87
Project cash flow . . . A banker's approach .....Mar. 90
Is free world trade coming to an end? .....Apr. 68-D
Spain's chemical industry leads in Europe .....Apr. 68-N
Take stock of future energy sources .....Apr. 193
Mideast ammonia prospects favorable .....May 94-D
Use land farming for oily waste disposal .....May 138
Developing roles of international oil companies .....June 60-J
Venezuela to help meet LPG demands .....July 56-G
Finite capital resources limit . . . Conversion from oil to coal .....July 107
U.S. propylene: Demand versus supply .....July 187
1985 LPG supply/demand promising .....Aug. 60-A
Europe's HPI future .....Sept. 60-E
Naphtha: Supply/demand 1977-1985 .....Sept. 237
What's ahead for NGL's? .....Oct. 147
What constrains petrochemical demands? .....Nov. 99
Petrochemicals in the Far East .....Nov. 179
From hydrocarbons to petrochemicals (Part 13).....Nov. 291
Planning for coal in 1980's .....Oct. 58-C
U.S. Impact on foreign trade .....Dec. 56-G
FOUNDATIONS
Better ways to repair machinery foundations .....Jan. 95
Foundation design for rotating fans .....Oct. 131
FUEL CELLS
Use of fuel cells in refining .....July 119
FURFURAL
Problems in furfural extraction .....May 181
Refining process handbook .....Sept. 97
FURNACES
Predict fouling by nomograph .....Mar. 145
Evaluate waste heat steam generators .....July 126
GASIFICATION
Merits of acid gas removal processes .....Feb. 125
Gas from peat—a good source of heat .....Apr. 107
SYNTHANE process ready for scale-up .....June 125
Medium Btu gas fits refiner's needs .....June 131
Coal minerals affect sulfur in processing .....Nov. 213
GEARS
Extend gear coupling life .....Jan. 112
A practical vibration primer (Part 8).....Apr. 209
GENERATORS
Save energy by cogeneration .....May 151
Recover energy with induction generators .....July 103
Use of turboexpanders with FCC .....July 111
Starting FCC power recovery .....Aug. 103
Erratum .....*Oct. 89*
Recover power from FCC units .....Dec. 131
GLYCOLS
From hydrocarbons to petrochemicals (Part 10).....Apr. 155
From hydrocarbons to petrochemicals (Part 12).....Aug. 153
Refining process handbook .....Sept. 97
Glycols not best for smoke point.....Dec. 105
GREASES see LUBRICANTS
HEAT TRANSFER
Better data with eddy current .....Jan. 117
New system streamlines furnace tube cleaning.....Jan. 120
Heat capacity determined for crude fractions .....Jan. 187
Change controls to save energy .....Feb. 93
Consider reactor control lags .....Mar. 115
Predict fouling by nomograph .....Mar. 145
Power cycle recovers lost energy .....Apr. 104
How good is flue gas desulfurization? .....May 132
Fluidized bed combustion has HPI potential .....May 143
Adapt fluidized-bed coal firing to process heaters .....May 145
Erratum .....*July 85*
Save energy by cogeneration .....May 151
Fuel oil conversion . . . Which method is best? .....May 154
Problems in furfural extraction .....May 181
Improve sulfur condensers .....May 239
Optimize water outlet temperature .....May 245
Reactors: Size versus stability .....June 119
Coal-fired process heaters? .....July 95
Use of fuel cells in refining .....July 119
Preflash saves heat in crude unit .....July 123
Evaluate waste heat steam generators .....July 126
Size relief systems for two-phase flow .....July 145
Analyze mixed refrigerant cycles .....July 163
Cure exchanger acoustic vibration .....July 193
Principles govern energy recovery .....Aug. 133
Visbreak resid? Figure value .....Nov. 205
How to make a steam balance .....Nov. 227
Estimate cooling tower requirements easily .....Nov. 238
New refractories solve old problems .....Nov. 259
Derive short-cut correlations .....Dec. 145
Measure heat loss onstream .....Dec. 159
HYDROCRACKING
Q & A gives processing guides .....Mar. 103
To up hydrocracking conversion .....May 113
Hydrocrack for more distillates .....May 117
More ways to use hydrocracking .....May 122
Refining process handbook .....Sept. 97
Unicracking for petrochemicals .....Nov 157
Hydroprocess solvent refined coal .....Nov. 195
HYDRODIMERIZATION
From hydrocarbons to petrochemicals (Part 11).....June 149
HYDROGEN
Process improves large scale hydrogen production .....Jan. 175
To up hydrocracking conversion .....May 113
What's new in catalysis? .....May 213
To predict cat reformer yield .....July 201
Are hydrogen permeation models accurate? .....Aug. 149
Refining process handbook .....Sept. 97
Processing solvent refined coal .....Nov. 195
HYDROGENATION
Refining process handbook .....Sept. 97
Hydroprocess solvent refined coal .....Nov. 195
HYDROTREATING
Q & A gives processing guides .....Mar. 103
How much lube and wax capacity .....May 185
Refining process handbook .....Sept. 97
Unicracking for petrochemicals .....Nov. 157
Refining Qayarah crude from Iraq .....Nov. 189
Hydroprocess solvent refined coal .....Nov. 195
INCINERATION
Use land farming for oily waste disposal .....May 138
INSTRUMENTATION
Weld thermocouples: It's faster and cheaper .....Jan. 106
Microcomputer systems: Where do you begin troubleshooting? .....Jan. 109
Change controls to save energy .....Feb. 93
Distill with composition control .....Feb. 99
Contractor eyes process computer .....Feb. 108
Parallel compressor control . . . What should be considered? .....Feb. 147
Consider reactor control lags .....Mar. 115
A practical vibration primer (Part 7) .....Mar. 119
Computer control . . . How will it pay? .....Apr. 169
Relief valves . . . What needs protection? .....Apr. 189
Microcomputers . . . Don't get left behind .....May 163
Double-cascade controller tested .....June 113
Reactors: Size versus stability .....June 119
Design a mobile machinery analysis laboratory .....Aug. 115
Computer control . . . How to get started .....Sept. 243
Wiring tight? . . . Try multiplexing .....Sept. 253
Corrosion monitoring . . . select the right system .....Nov. 251
Analyze steam tracing . . . do it right .....Dec. 125
How to apply programable controllers .....Dec. 137
Measure heat loss onstream .....Dec. 159
INTERNATIONAL TRADE
World LNG trade .....Jan. 68-D
Oil and/or chemical refineries .....Feb. 76-F
Japan is ready for international ventures .....Mar. 58-D

Energy sets product prices ..... Mar. 58-J
Is free world trade coming to an end? ..... Apr. 68-D
Spain's chemical industry leads in Europe ..... Apr. 68-N
Mideast ammonia prospects favorable ..... May 94-D
LNG uses—now and later ..... May 191
Developing role of international oil companies ..... June 60-J
Venezuela to help meet LPG demands ..... July 56-G
Europe's HPI future ..... Sept. 60-E
Planning for coal in 1980's ..... Oct. 58-C
U.S. impact on foreign trade ..... Dec. 56-G

INVENTORIES

New design calculations for high temperature storage tanks ..... Oct. 137

ISOBUTENE

Distill with composition control ..... Feb. 99

ISOMERIZATION

Refining process handbook ..... Sept. 97

ISOPROPANOL

From hydrocarbons to petrochemicals (Part 11) ..... June 149

KETONES

From hydrocarbons to petrochemicals (Part 11) ..... June 149
From hydrocarbons to petrochemicals (Part 12) ..... Aug. 153
Re-refining makes quality oils ..... Oct. 141
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

LEGISLATION

Is free world trade coming to an end? ..... Apr. 68-D
New lubes up auto fuel economy ..... May 129
Latest clean air requirements ..... Oct. 91
Refinery cyanides—a regulatory dilemma ..... Oct. 98

LIQUEFIED NATURAL GAS

World LNG trade ..... Jan. 68-D
System is accurate, precise for LNG sampling ..... Apr. 114
LNG uses—now and later ..... May 191
Evaluate separation for LNG plants ..... Sept. 266

LIQUEFIED PETROLEUM GAS

Distill with composition control ..... Feg. 99
Behavior of LPG on water ..... Apr. 117
Venezuela to help meet LPG demands ..... July 56-G
1985 LPG supply/demand promising ..... Aug. 60-A
What's ahead for NGL's? ..... Oct. 147

LIQUEFACTION

Coal minerals affect sulfur in processing ..... Nov. 213

LUBRICANTS

To up hydrocracking conversion ..... May 113
New lubes up auto fuel economy ..... May 129
Problems in furfural extraction ..... May 181
How much lube and wax capacity ..... May 185
Refining process handbook ..... Sept. 97
Re-refining makes quality oils ..... Oct. 141
Better filtration of waste oils ..... Dec. 103

MAINTENANCE

New survey of U.S. refinery maintenance costs ..... Jan. 85
How to pack high temperature valves ..... Jan. 91
Better ways to repair machinery foundations ..... Jan. 95
Better training by vendors ..... Jan. 99
Maintenance management for today's high technology plants ..... Jan. 101
Microcomputer systems: where do you begin troubleshooting? ..... Jan. 109
Extend gear coupling life ..... Jan. 112
Better data with eddy current ..... Jan. 117
New systems streamlines furnace tube cleaning ..... Jan. 120
A practical vibration primer (Part 7) ..... Mar. 119
Predict fouling by nomograph ..... Mar. 145
Questions and answers on crude unit corrosion ..... Apr. 141
A practical vibration primer (Part 8) ..... Apr. 209
Design a mobile machinery analysis labortory ..... Aug. 115
Corrosion monitoring . . . select the right system ..... Nov. 251
New refractories solve old problems ..... Nov. 259
Measure heat loss onstream ..... Dec. 159

MANAGEMENT

Maintenance management for today's high technology plants ..... Jan. 101
Technology transfer at Arzew ..... Jan. 199
Develop people for overseas work ..... Jan. 221
How to read an organization chart ..... Jan. 245
How to prepare inspection reports (Part 1) ..... Feb. 159
What the new clean water acts means to HPI plant managers ..... Feb. 165
Use a matrix for project plants ..... Feb. 177
How to prepare inspection reports (Part 2) ..... Mar. 159
The international managers' needs (Part 1) ..... Mar. 173
Take stock of future energy sources ..... Apr. 193
Industry must guide teachers ..... Apr. 219
The international manager's needs (Part 2) ..... Apr. 227
Talk back to the media ..... Apr. 247
How water regs impact refining ..... May 135
How much benzene causes cancer? ..... May 172
Train employes to improve health ..... May 175
The international manager's needs (Part 3) ..... May 249
Managers can win in Washington ..... May 267
Transfer technology effectively ..... June 167
This plant uses a 12-hour workday ..... June 183
The HPI can prevent cancer ..... June 193
Chemical recycle can save energy ..... July 89
Units aid energy work ..... July 142
Graphic aids can be your friend ..... July 215
Manage the 'marginal' engineer ..... July 226
Retard stress with biofeedback ..... July 247
Clean Air Act '77 (Part 1) ..... July 255
Make good use of the literature ..... Aug. 77
'People power' saves plant energy ..... Aug. 82
What every manager should know about environmental regulations ..... Aug. 87
Increase your plant's productivity ..... Aug. 91
Handle public relations better ..... Aug. 95
New union demands are coming ..... Aug. 98
Principles govern energy recovery ..... Aug. 133
Clean Air Act '77 (Part 2) ..... Aug. 173
Improve CPM milestone networks ..... Sept. 277
Develop your human resources ..... Sept. 293
Latest clean air requirements ..... Oct. 91
Refinery cyanides—a regulatory dilemma ..... Oct. 98
Reboiled stripper cuts waste ..... Oct. 107
Principles of activated sludge treatment (Part 1) ..... Oct. 112
Pick the right seal ..... Oct. 119
Polishing biological plant effluents ..... Oct. 125
Use public relations advantageously ..... Oct. 155
Motivate for superperformance ..... Oct. 165
Tomorrow's fuels will be less efficient ..... Nov. 209
Plant uses prove phenol recovery with resins ..... Nov. 269
Principles of activated sludge treatment (Part 2) ..... Nov. 275
Teach HPI technology to novices? ..... Nov. 305
Present your ideas effectively ..... Nov. 313
Principles of activated sludge treatment (Part 3) ..... Dec. 147
When you apply for a job ..... Dec. 165
Handle grievances effectively ..... Dec. 177
Get recognition for your studies ..... Dec. 183

MATERIALS HANDLING

L-valve characterized for solids flow ..... Mar. 149

METALS

What's new in catalysis? ..... May 213
Evaluate waste heat stream generators ..... July 126
Refining Qayarah crude from Iraq ..... Nov. 189

METHANATION

What's new in catalysis? ..... May 213

MOLECULAR SIEVES

Refining process handbook ..... Sept. 97

MOTORS

Protect motors by heat sensing ..... Apr. 175
New method predicts startup torque (Part 1) ..... Apr. 181
A practical vibration primer (Part 8) ..... Apr. 209
Save energy by cogeneration ..... May 151
New method predicts startup torque (Part 2) ..... May 229
Recover energy with induction generators ..... July 103
Use of turboexpanders with FCC ..... July 111
Starting FCC power recovery ..... Aug. 103
Erratum ..... *Oct. 89*
Recover power from FCC units ..... Dec. 131

NAPHTHA

Process improves large scale hydrogen production ..... Jan. 175

NATURAL GASES

Design for selective H_2S absorption ..... Apr. 89
Capability of the Peng-Robinson programs ..... Apr. 95
Power cycle recovers loss energy ..... Apr. 104
Selexol unit saves energy ..... Apr. 122
LNG uses—now and later ..... May 191
Evaluate separation for LNG plants ..... Sept. 266

NITRIC ACID

Make strong and/or weak HNO_3 ..... Nov. 163
Lowest energy ammonium nitrate ..... Nov. 169

NITRILES

From hydrocarbons to petrochemicals (Part 11) ..... June 149
Adiponitrile via EHD ..... Nov. 139

NOZZLES

Size vessel nozzles faster ..... Dec. 100

OLEFINS

From hydrocarbons to petrochemicals (Part 8) ..... Jan. 135
What's ahead for PVC ..... Jan. 155
Distill with composition control ..... Feb. 99
Dehydrate ethanol to ethylene ..... Feb. 133
From hydrocarbons to petrochemicals (Part 9) ..... Mar. 129
From hydrocarbons to petrochemicals (Part 10) ..... Apr. 155
What's new in catalysis? ..... May 213
From hydrocarbons to petrochemicals (Part 11) ..... June 149

Analyze mixed refrigerant cycles ..... July 163
Options for olefin feedstocks ..... July 171
Why revamp an older steam cracker? ..... July 179
U.S. propylene: Demand versus supply ..... July 187
From hydrocarbons to petrochemicals (Part 12) ..... Aug. 153
Improve steam cracker operation ..... Sept. 227
Naphtha: supply/demand 1977-1985 ..... Sept. 237
Refining process handbook ..... Sept. 97
What's ahead for NGL's? ..... Oct. 147
Compare propylene oxide processes ..... Nov. 105
Feedstocks from coal: How? When? ..... Nov. 117
Butadiene via oxidative dehydrogenation ..... Nov. 131
New process for LD-PE ..... Nov. 151
Petrochemicals in the Far East ..... Nov. 179
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291
Petrochemical alternative—ACR ..... Dec. 109

OXIDATION

Oxidize n-paraffins for sec-alcohols ..... Jan. 145
Preblems in furfural extraction ..... May 181
Compare propylene oxide processes ..... Nov. 105
Make phenol from benzoic acid ..... Nov. 125
Make strong and/or weak HNO_3 ..... Nov. 163

OXO REACTION

From hydrocarbons to petrochemicals (Part 11) ..... June 149

OXYGEN

Oxidize n-paraffins for sec-alcohols ..... Jan. 145
Compare propylene oxide process ..... Nov. 105

PHENOLS

Make phenol from benzoic acid ..... Nov. 125
From hydrocarbons to petrochemicals (Part 13) ..... Nov. 291

PIPING

New system streamlines furnace tube cleaning ..... Jan. 120
Change controls to save energy ..... Feb. 93
How to stress analyze jacketed piping ..... Feb. 139
Simplify calculation of economic pipe sizes ..... Feb. 143
Select expansion joints properly ..... Mar. 141
Design cat crackers by computer ..... Apr. 125
Install pumps for minimum stress ..... June 96
Size relief systems for two-phase flow ..... July 145
Size vessel nozzles faster ..... Dec. 100

POLYMERIZATION

New process for LD-PE ..... Nov. 151

POLYOLEFINS

New process for LD-PE ..... Nov. 151

POLYVINYLCHLORIDE

What's ahead for PVC ..... Jan. 155

PROPANE

Distill with composition control ..... Feb. 99

PROPIONALDEHYDE see ALDEHYDES

PROPYLENE

From hydrocarbons to petrochemicals (Part 8) ..... Jan. 135
Cut polymer costs with cyclones ..... Feb. 119
From hydrocarbons to petrochemicals (Part 9) ..... Mar. 129
From hydrocarbons to petrochemicals (Part 11) ..... June 149
Analyze mixed refrigerant cycles ..... July 163
U.S. propylene: Demand versus supply ..... July 187
Compare propylene oxide processes ..... Nov. 105
Petrochemical alternative—ACR ..... Dec. 109

PROPYLENE CARBONATE

Save energy in ammonia plants ..... Apr. 145
Erratum ..... *July 85*
From hydrocarbons to petrochemicals (Part 11) ..... June 149
Compare propylene oxide processes ..... Nov. 105

PUMPS

Change controls to save energy ..... Feb. 93
A practical vibration primer (Part 7) ..... Mar. 119
A practical vibration primer (Part 8) ..... Apr. 209
How to select a centrifugal pump vendor ..... June 93
Install pumps for minimum stress ..... June 96
Inline or horizontal . . . Which is best? ..... June 99
Save energy with pumps ..... June 103
Consider suction specific speed ..... June 107
Try spring mounted pumps ..... Sept. 247
Select pumps to save energy ..... Oct. 127
How to make a steam balance ..... Nov. 227

REACTORS see also specific equipment

Consider reactor control lags ..... Mar. 115
Gas from peat—a good source of heat ..... Apr. 107
Reactors: size versus stability ..... June 119
Advances in Claus technology ..... Sept. 257
Refining process handbook ..... Sept. 97
Make sulfur from lean acid gases ..... Nov. 219
Derive short-cut correlations ..... Dec. 145

REFORMING

Q & A gives processing guides ..... Mar. 103
Save energy in ammonia plants ..... Apr. 145
Erratum ..... *July 85*
To predict cat reformer yield ..... July 201
Refining process handbook ..... Sept. 97
Unicracking for petrochemicals ..... Nov. 157

REFRIGERATION

Change controls to save energy ..... Feb. 93
Save energy in ammonia plants ..... Apr. 145
Erratum ..... *July 85*
Analyze mixed refrigerant cycles ..... July 163
Principles govern energy recovery ..... Aug. 133
Refining process handbook ..... Sept. 97

RELIEF VALVES see VALVES

RESIDUES

More ways to use hydrocracking ..... May 122
Refining process handbook ..... Sept. 97

SAFETY

HPI loss-incident case histories ..... Feb. 183
Design for ethylene plant safety (Part 1) ..... Mar. 191
Behavior of LPG on water ..... Apr. 117
Relief valves . . . What needs protection? ..... Apr. 189
Design for ethylene plant safety (Part 2) ..... Apr. 261
How water regs impact refining ..... May 135
New design rules for frangible roof tanks ..... May 167
How much benzene causes cancer? ..... May 172
Train employes to improve health ..... May 175
Use combustible gas analyzers ..... May 282
The HPI can prevent cancer ..... June 193
How to cope with aluminum alkyls ..... Nov. 341

SAMPLING

Change controls to save energy ..... Feb. 93
System is accurate, precise for LNG sampling ..... Apr. 114

SMOKE POINT

Get aromatics out of kerosine ..... Feb. 113
Glycols not best for smoke point ..... Dec. 105

SOLUBILITY

Re-refining makes quality oils ..... Oct. 141
Better filtration of waste oils ..... Dec. 103
Glycols not best for smoke point ..... Dec. 105

SOLVENT REFINING

Problems in furfural extraction ..... May 181
How much lube and wax capacity ..... May 185
Refining process handbook ..... Sept. 97
Re-refining makes quality oils ..... Oct. 141
Refining Qayarah crude from Iraq ..... Nov. 189
Processing solvent refined coal ..... Nov. 195
Glycols not best for smoke point ..... Dec. 105

SPECIFICATIONS

What process engineers need to know about compressor design ..... May 221

STABILITY

Consider reactor control lags ..... May 115
Problems in furfural extraction ..... May 181
Reactors: size versus stability ..... June 119

STACKS

How good is flue gas desulfurization? ..... May 132

STANDARDS

Compressor shop tests? Do they ensure reliability ..... Apr. 201
New design rules for frangible roof tanks ..... May 167
Save electrical energy (Part 2) ..... Aug. 127
Latest clean air requirements ..... Oct. 91
Select pumps to save energy ..... Oct. 127
Guide to Italian Pressure Vessel Code ..... Dec. 95
Guide to Japanese Pressure Vessel Code ..... Dec. 96
Guide to Japanese Standard Pressure Vessel Construction ..... Dec. 97
Guide to Japanese High Pressure Gas Control Law ..... Dec. 98
Size vessel nozzles faster ..... Dec. 100

STORAGE see INVENTORIES
